

**WILCOX OIL:** The Wilcox Oil Superfund site is former oil refinery located in Bristow, Creek County, Oklahoma. Environmental issues associated with the facility include a number of refinery waste source areas of concern including a backfilled oily waste pond, backfilled waste pits, and a number of tank bottoms. The results of samples collected observed releases to shallow ground water and indicated high concentrations of lead. A Special Notice Letter is in concurrence to 6 potentially responsible parties. **(Banipal, x7324)**
